

INTRODUCING THE

NuVu Screen

OUR MOST FLEXIBLE, DURABLE SCREEN WITHOUT COMPROMISING YOUR INSTALLATION TIME OR HOMEOWNER VIEWS

Paradigm Windows is proud to share our newest innovation: Introducing the NuVu Screen. This screen is designed to provide supreme flexibility, durability and visibility.

Here at Paradigm Windows, we want to ensure our partners are able to provide nothing short of the highest quality to their customers. After all, our shared goal is to deliver tailored products and solutions of the finest standard. That's why we have been working to bring technology and products. In fact, this product optimizes your window offering so well that it comes standard.

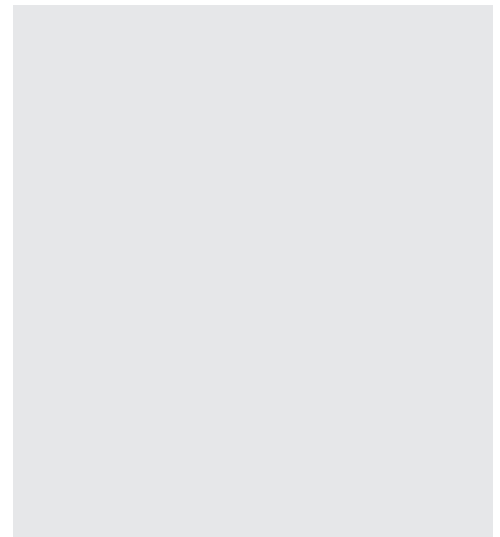

Durability

The NuVu Screen has a PVC coated frame that provides incredible durability. In fact, you can toss this frame from the top of your house and it won't get damaged!

Flexibility

NuVu Screen is available in full screen sizes. The spring steel frame doesn't require any additional hardware to install. Just push the sides together and place in its screen track. Yes, it's that simple

Visibility

NuVu Screen makes the view from outside in and inside out even better. We also have upgraded the screen mesh to a less visible mesh improving the view.

Contact your Paradigm Windows Sales Rep today for a quick demo and sample of the NuVu Screen.
