

PARADIGM
WINDOWS

5-Series

THE PARADIGM DIFFERENCE

Paradigm Windows offers the tradition of craftsmanship, with an emphasis on value without ever compromising performance – offering ultimate peace of mind. Paradigm carries a full range of vinyl window and door solutions that are rigorously tested for some of the harshest elements in America. Expertly designed and manufactured, Paradigm Windows are weather-tight and perfectly built for your new construction and replacement projects.

PARADIGM BENEFITS

WHY CHOOSE PARADIGM

Built To Last a Lifetime...Ultimate Peace of Mind

Paradigm Windows manufactures windows and doors that are built, verified and tested to exceed industry standards. Our custom made, premium vinyl windows and doors perform in the most diverse of climates. Our industry-leading warranty covers lifetime materials and parts, and 5 years of labor.

Hassle-Free

Innovative design provides design flexibility, including additional options and accessories that ensure our products are easy to install, operate and clean – quality you deserve at a value you'll appreciate.

Everything is Custom Built To Your Specifications

We use premium virgin vinyl because it resists fading, cracking, peeling and rotting. Additional options and accessories include exterior casing, grids, screens, locks and glass options.

Making the Right Decision

When you are comparing different window brands be sure to review each product's testing information. Paradigm Windows products are tested by certified, independent laboratories that provide you with critical information that you need to make the best decision for your project.

We Meet or Exceed Standards of All Prominent Organizations That Set Industry Requirements

At Paradigm, the quality of our product and our processes is at the forefront of everything we do. As a member of all major regulatory organizations for windows and doors, we further our commitment to delivering our products complete, on-time and exactly as promised.

AAMA Gold Certification on All Products

American Architectural Manufacturers Association (AAMA) Independently Tested — considered the most well-established quality assurance program available to window and door manufacturers.

National Fenestration Rating Council

The NFRC label on Paradigm products ensures you have accurate performance information when shopping for the best products for your home.

ENERGY STAR® Certification

ENERGY STAR is a program that enables consumers to make informed choices about energy efficient windows and doors.

Use of ENERGY STAR products can reduce energy consumption, helping you save money while protecting the environment.

5-Series

Double Hung, Slider & Picture

The 5-Series product line offers opportunity for the more cost conscious to choose from many of the same energy saving features offered by Paradigm, while making certain your new construction or remodeling project stays within budget.

All 5-Series products are backed by Paradigm's industry-leading warranty.

5-Series products available in white only

Features & Benefits

Fully Integrated Interlock

Full interlocking system with a lock at the meeting rail improves security while several contact points of weather-stripping reduce air infiltration. **Air infiltration ratings as low as 0.04 cfm/sq.**

Glass Performance

All 5-Series products can meet the most recent ENERGY STAR requirements.

Constant Force Balance

5-Series leverages 1/2" constant force stainless steel balances ensuring effortless sash operation when opening and closing the window, with a single lift rail on the bottom sash.

Superior Strength and Durability

100% virgin PVC vinyl at 0.65 nominal wall thickness provides superior strength and durability. Multi-chambered vinyl profiles maximize viewing area and energy performance. 5-Series products are designed to meet a PG-35 rating for air, water infiltration and deflection, perfect for the home remodeler.

Duralite® Spacer Technology

A spacer keeps a window's glass panes the correct distance apart. In some windows, the spacer in the window frame can be conductive, allowing valuable energy to escape. Our polycarbonate spacer system **reduces conductivity by 45%** by eliminating metal components. The result is the ability to maintain temperatures inside through our window's optimized thermal performance.

Spacer Comparison

Duralite® keeps the "touch" temperature of the glass up to +21.4°F warmer than competition at the edge of the glass.

Options & Accessories

Exterior Casing

Available in 3 1/2" flat casing style with sill nose only.

Other Accessories

SERVICE & SUPPORT

5-SERIES WARRANTY

The best windows and doors deserve the best warranty, and that's exactly what we deliver.

All Paradigm window & door products are backed by our Lifetime Materials Warranty which includes five years of labor, and is transferable to a second property owner. So, by choosing from our 5-Series standard product you can rest assured, you have chosen wisely.

Components and Glass	Labor
Limited Lifetime	5 Years

Those who choose to use the FlexScreen™ product, screen warranties must be registered by the homeowner through FlexScreen™ at <http://www.flexscreenwarranty.com>.

Window Warranty Comparison

COMPONENT	AVERAGE	PARADIGM
VINYL	10 - 15 Years	LIMITED LIFETIME, NON-PRORATED
FRAME	10 Years	LIMITED LIFETIME, NON-PRORATED
GLASS	10 - 20 Years	LIMITED LIFETIME, NON-PRORATED
NON-GLASS PARTS/HARDWARE	5 - 10 Years	LIMITED LIFETIME, NON-PRORATED
LABOR/PARTS	UNCOVERED; CLIENT PAYS OUT OF POCKET	FIRST 5 YEARS

Warranties are very different between companies and window lines. Please note that these averages are made after research and based on multiple sources.
